

MADE IN GREEN
by **OEKO-TEX®** –
YOUR LABEL FOR SUSTAINABLY
PRODUCED TEXTILES AND
LEATHER PRODUCTS.

Transparency that anyone can check.
For conscious decisions.

SUSTAINABLE

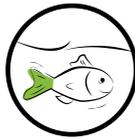

You can rely on it.

Articles with the MADE IN GREEN label are produced:

Using materials tested for harmful substances

Harmless to health, checked by rigorous testing performed in one of the OEKO-TEX® member institutes' laboratories

In environmentally friendly facilities

Monitored for the responsible handling of chemicals and resources as well as using environmentally friendly production technology

In safe and socially responsible workplaces

In verifiably fair working conditions without child or forced labour

TRANSPARENT

See for yourself.

Every product bearing a MADE IN GREEN label or tag has its own unique product ID or QR code. This allows you to trace the article's supply chain in a transparent manner.

Product ID and QR Code give you:

- ✓ confirmation that this particular article meets the MADE IN GREEN criteria
- ✓ an overview of the stages involved in manufacturing the article
- ✓ additional useful information on the participating manufacturers

RELIABLE

In a world in which everything is more complicated and incomprehensible, it is more important than ever to have clarity and safety for material items, particularly those that we wear on our skin. The MADE IN GREEN label was developed to give you this certainty.

MADE IN GREEN means that it was **made with you in mind.**

More information on eligibility requirements for the MADE IN GREEN label can be found at www.madeingreen.com.
